- Online gaming represents one of the Internet's fastest-growing business segments. In fact, according to Bear Stearns projections, web-based gambling is expected to be a \$6 billion business by the year 2003 ... that's a \$6,000,000,000 pie just waiting for you to grab a slice! As a casino affiliate webmaster, you are in a unique position to share in the tremendous profits generated by the online gambling business. As you know, every opportunity in this world boils down to timing. Take advantage of an opportunity at the right time and watch your bottom line go through the roof. Hesitate though, and you'll most likely miss out on the chance of a life time. Don't get left out! Now is the right time for you to seize this amazing money-making opportunity by partnering with one or more of the Internet's most-trusted casinos and sportsbooks. Amazingly, our casino affiliate programs require little or no financial investment ... with nothing more than a web site and moderate amounts of online marketing, webmasters are earning six figure incomes for the first time in their lives. You see, there are currently more than 750 offshore gambling sites and more are coming online every day. And, each of these establishments needs one thing to succeed ... web site traffic. What's more, these online gaming operations are willing to pay big bucks to attract new players. That's your opportunity right there! As a webmaster, it's up to you to take advantage of the Internet gambling industry's willingness to pay you for your traffic! When you join one of our casino affiliate programs, we'll provide you with a unique tracking URL that identifies the traffic coming from your website. When a visitor from your site joins one of our gaming sites, you'll immediately start earning a percentage of that player's net game play for the entire life of that player! And, we'll provide you with the banners and other creative resources you need to help attract more and more players. It's a virtual money machine! So, the opportunity for earning serious money is waiting for you. Will you let this chance of a lifetime slip through your fingers? Or, are you ready to discover what hundreds of newly-rich webmasters already know ... our casino affiliate programs will generate a revenue stream you've only dreamed of before! Seize the opportunity ... become a VIP webmaster today! [more details](#)

- Saratoga DuoGlider Travel System - The DuoGlider travel system takes some of the difficulty out of transporting more than one child. The two-in-one system includes a durable two-seat stroller that sets up with a minimal amount of assembly and can be used to transport two small children (up to 40 pounds each). One child can also ride comfortably in the tandem-style stroller, or, by snapping the included infant carrier in place over the back seat of the stroller, you can use it to transport one child and one infant at the same time. Thick, washable padding on the stroller's seats and edges makes the DuoGlider a snug and comfortable environment for passengers, and the infant carrier comes with its own stay-in-car base for convenience and quick loading. Both stroller seats recline and are equipped with retractable canopies and 3-point harnesses. A food tray can be snapped into place across the front seat and an arm bar can be fitted on the stroller's elevated back seat--providing additional protection for passengers. The travel system is heavy and may be difficult for some parents to carry and load, but it folds up smoothly for more compact storage at home or in the back of a car. The rear-facing infant carrier has a 3-point harness, and the stroller's rear seat reclines to a completely horizontal position. Both the stroller and the car seat feature the attractive Saratoga plaid styling in green, taupe, and blue. --Chris Burns [more details](#)

- Expedition Double Stroller - Addressing some of the challenges that face parents of more than one child, this Expedition jogging stroller is loaded with performance and convenience features. The wide wheel base (nearly 32 inches across the rear wheels) and steel frame provide a sturdy platform for the stroller's two side-by-side seats--each one equipped with a five-point harness and buckles for adjusting the angle of recline (two positions) separately. A textured rubber handle provides a snug grip for Mom and Dad, while the hand brake and safety tether will give parents additional confidence as they take one or more passengers along during those early morning workouts. Although the hand brake should only be used for slowing down, the two rear wheel locks do a great job of securing the stroller when you come to a stop. This well-designed stroller comes with detachable wheels and it is relatively easy to collapse the frame for compact storage or travel. [more details](#)

- Tike Tech Double Trouble Jogging Stroller - Blue - Tike Tech double trouble with it's aluminum lightweight frame is the perfect stroller for the active parent. Tike Tech jogging strollers, with all their cool looks, quality and durability can be used for more than just jogging. We understand that parents are looking for ways to have an active and healthy life style. Although great for running, you see Tike Tech strollers being used from the sidewalks to the malls and the trails to the beaches. The Tike Tech is an all season stroller. That's the great thing about our strollers! They are engineered to take whatever mother nature throws our way [more details](#)

Avent - Made in England

- Express Microwave Steam Sterilizer - I love this product!!, September 12, 2002 Reviewer: A baby enthusiast from NJ United States I was tired of sterilizing bottles over the stovetop (how time-consuming!) and decided to try this microwave-sterilizer. Honestly, my expectations were not that high, but I was very pleasantly surprised! It only takes four minutes to sterilize four complete bottles, and I don't know how I lived without it! It's also great for sterilizing toys and pacifiers, too. I've only had it a week or so, but I've already gotten my money's worth! I highly recommend this product!! [more details](#)

- Isis Breast Pump - I Love It!, September 19, 2002 Reviewer: shannon321 from Fort Collins, COLORADO United States This pump is great! I let down much faster with this than the hospital electric pump and it feels much better. The electric was giving me blisters while the Isis is very comfortable. Since I'm working, this pump is easy to take with me, its small, quiet, and doesn't require an outlet or batteries. Plus, since I let down so much faster, I can express quickly and get enough milk. And my son goes easily from breast to bottle and back again. Great value. [more details](#)
- Avent - Breastshells - Great Work "Avent", July 29, 2002 Reviewer: mariselamex from New York, NY (USA) When I started breastfeeding besides the pain it was the leaking which I couldn't control. I remember I would hold a bottle to collect the milk, till one day I dropped it all on the floor. So I stopped doing that. One day I went to Babies R Us and saw the Avent shells, I bought it no questions asked and I was so happy that I wished someone had told me about this great product. It's great while I'm nursing and pumping. This product saved me on disposable pads. I have been using it for 4 months and till this day I'm can't be without it. One suggestion make sure you tightly secure the shell and depending how much you leak check so shell won't get full. [more details](#)
- Express Bottle & Babyfood Warmer - Better than the alternative, September 14, 2002 Reviewer: A baby enthusiast from ATL I have been pretty happy with this product. I use it at night for those 3 a.m. feedings since my bedroom is on a different floor from the kitchen. Its better than waiting for the water to get hot from the sink. During the day, I just heat water in the microwave and place the bottle in the warm water which takes about the same amount of time as this warmer. I agree that it should have an on/off switch because hunting for the outlet in the dark at 3 a.m. can be a real chore! [more details](#)
- 9 oz. Feeding Bottles 3-pack - The BEST for BREASTFED!, September 17, 2002 Reviewer: Jaimie from Lubec, ME These are the best bottles out there for a breastfed baby. The wide bottom on the nipple is great. This nipple comes the closest I've seen to the actual breast. My 4 1/2 month old baby loves them. I'd advise you to get these instead of the 5 oz bottles. They are the same price, but these hold more. [more details](#)
- Deluxe Gift Set - The best bottle on the market, August 29, 2002 Reviewer: Bethany Kulig from Fayetteville, NC I love the Avent bottles. When I had my daughter I planned on breast feeding only, but when she wasn't gaining enough weight we had to supplement with formula. I chose the Avent bottle because of it's shape and I loved everything about it, we never had a problem with gassiness because this bottle is meant to keep air out, and when it was time for her to transition to the cup I would just pop out the nipple and pop in a spout which made the transition much easier from bottle to cup. I would recommend this as being one of the best shower gifts on the registry. The Avent Steam Sterilizers are quick and easy too. [more details](#)

- 7 oz. Magic Cup Trainer - 6 Pack - Avent magic cup is a definite keeper, September 3, 2002 Reviewer: A baby enthusiast from APO, AE United States Our 11 month old will not take to a sippy cup for anything, we have tried every single one on the market. This avent cup is definitely different, it has a longer spout so it's similar to a bottle nipple, and it is rubber instead of the usual plastic, so it's also a little more familiar to the child as it being close to a bottle. Our son will not drink solely from this cup, but it IS the only cup that he will at least take a sip here and there from, and trust us, that's a big step for this stubborn little drinker!!!! The design of the cup makes it different than that of any others on the market, and I would recommend it wholeheartedly to anyone having difficulty weaning from bottle to sippy cup. I am 100% sure that when our baby does wean completely from the bottle, it will be to this cup, because he won't give any of the others a chance even, so in my eyes, this product is a winner, even though we haven't quite won yet!!!! Hope this helps someone else with a stubborn cup drinker!!!! [more details](#)

- Newborn Starter Set - Awesome bottle system, September 1, 2002 Reviewer: Candy from Nashville Yes, at first mine dribbled, then I realized after I warm the bottle to loosen the ring and then tighten the ring as tight as I could (I don't have a very strong grip either) and that solved the dripping. My baby is now 4 mos. old and I love the fact that the nipples came in different "drip" rates. And another great thing is that when she is ready for a sippy cup, all you have to buy is the sippy nipples. [more details](#)

- Express 6 Bottle Steam Sterilizer - A Great Product!, August 11, 2002 Reviewer: Melissa DelGaudio from Davidsonville, MD United States As a new mom who's still trying to get used to "flying solo" with a newborn, the Avent Express Steam Sterilizer has been a lifesaver for me! In just 8 minutes, I can sterilize 6 bottles, all of their parts, as well as the parts to my breast pump. I don't have to worry about boiling water and then waiting for the water to cool before using the pieces (I just don't have that kind of time!), nor do I have to worry about melting nipples on the stove (something that I'd be sure to do, given my newly acquired sleep deprivation!) This product is most certainly worthy the money and I would buy it again without batting an eyelash! [more details](#)

- Stress Less:: The Affirmation Station Clock (Clocks) This digital recording alarm clock gradually lulls you to sleep and wakes you with your personal affirmation in your own voice! Recording positive statements about yourself by speaking into the clock and as you fall asleep the Affirmation Station repeats your message once a minute for 10 minutes at a gradually decreasing volume. Then, when the alarm is triggered in the morning, the same affirmation is repeated once a minute for 10 minutes at a gradually increasing volume. As you are falling asleep or waking up, your brain is naturally in the Alpha State where affirmations have proven to be most effective. Clock comes with a 40-page instruction book that includes how to use it for additional spiritual practices including meditation. The handsome clear maple hardwood timepiece is 8" x 5" x 3" deep, runs on 3 AA batteries (not included). [more details](#)

- Ocean Travel Alarm Clock Winner of the Design Plus Award in Frankfurt for its unusual design and functionality. The substantial and beautiful nickel finished case will not tarnish. - Steinhausen Classic Automatic Chronograph Watch - We traveled back in time to bring you this rarely seen timepiece. In fact, this classic watch was nearly lost to history books. Steinhausen, which started its watch manufacturing in 1923 made less than 100 of these incredible hand-made watches. At the time, they were unique for one major reason. The Steinhausen was the first watch with the ability to display day, month and date with AM/PM. In fact, the originals are so rare and sought after that when they do enter the market place they usually fetch well over \$300,000. No one has ever attempted to recreate this classic original until now. Every facet of this incredibly handsome timepiece has been painstakingly reproduced down to every detail including the graceful, sweeping second hand movement. The uniquely shaped case and buttons are crafted of brushed and polished stainless steel. The ivory face is accentuated by striking roman numerals. Of course it was also updated with kinetic power. That means this 35 jewel mechanical automatic rewinding watch never needs batteries and never needs to be wound. It is constantly charging itself with the movement of your body. With a limited edition issue made for the world market it will not be long before this classic disappears for another 75 years. Also includes both brown and black fine leather wristbands for different looks. Comes housed in a handsome felt lined box with cherry stain finish. Here is your rare chance to wear a one-of-a-kind automatic Steinhausen classic valued well over \$1,000.00 for just \$200.00. [more details](#)
- Ciao Baby Foldable Electric Bike - So you think you've experienced the best electric bikes in the world? Think again. We've once again improved our world famous line of CIAO Electric Bikes. Here's your chance to experience this incredible ride before the rest of the world. Not only it does it come with an incredibly powerful rechargeable 200W electric motor but it folds up. That means you can fit it in the trunk of your car or store it in a closet. Cruise up to 17 miles on a single charge. 36V battery will have you moving at a brisk 12MPH or pedal for exercise. Use it for work or leisure. Pedal to work and cruise home on electric power or vice versa. Fold it up and take it on the bus or on the ferry. Then cruise all day on electric or pedal power. It goes anywhere a regular bike goes but now you have the option of just sitting back and going for a ride on electric power. There's nothing like feeling the wind in your hair and the sun on your face without ever having to break a sweat - unless you choose to of course. Manufactured out of rugged reinforced stainless steel and aluminum, this CIAO Electric is not timid about going off the bike path. All terrain 20" rubber wheels will give you the traction you need in any environment. Shock absorber and ultra comfort seat will cushion you on the most brutal bumps. Safety features include front and rear hand brake, speed control and reflectors. Electric BLUE gloss enamel paint also makes this the sharpest looking electric ride on the planet. So here you have it. The latest, greatest electric bike ready and waiting for you to hop on and take off. And at this price you may just want to start thinking about those upcoming holidays. We can't think of a cooler gift for yourself or your family. It's enough to

take your breath away. Dimensions: 32" x 15" x 30" Weight: 65lbs. [more details](#)

- Dyno Kwick Pick - Forgot your briefcase key at home? You get all the way to the airport when you realize you left it on the kitchen counter. Luckily, you've slipped the Dyno Kwick Pick" your brother wanted you to try out in your suit jacket and opened the briefcase in minutes. Light, comfortable to carry, the Kwick Pick is an invaluable tool anywhere you go. In lightweight aluminum alloy, this locksmith-in-a-pocket fits comfortably in your hand, and opens everything from padlocks, file cabinets, desk drawers and toolboxes to luggage, gas caps and some auto doors and door locks. (Check the laws in your state for legal restrictions and use of lock picks.) [more details](#)
- GASOLINE-POWERED ELECTRIC SCOOTER - WOW. We've waited a long time for this one. The reason why we have only introduced electric scooters until now? They're easier to use and maintain. With gas scooters they were either overpriced, dangerous or too complicated. Our scooter has been specially manufactured with a powerful 700W single cylinder, air-cooled, 2-stroke engine. What does that mean to you? That means extra speed and a scooter that starts with the push of a button. No more messing around with one of those pull cord starters that practically yanks your arm from your socket. Just push the electronic starter button and the engine will kick over automatically (also includes built-in backup pull cord starter). You'll have fun zipping along at a brisk 16 MPH. And talk about distance. One 1-liter tank of gas will take you an incredible 28 miles. And at this price you can get one for everyone in the family. Always wear a helmet. Happy scootering. - Digital Secret Spy Camera Pen - CLICK. CLICK. CLICK. Just like that you can take digital pictures without anyone ever knowing. How cool is that? Just like your favorite movie spy hero, this incredible digital device gives you the ability to do what no other camera is capable of. Have you ever been to a board meeting and wished you could snap some quick candid shots in secret? Is there a suspicious stranger hanging around? Take a mug shot without them ever knowing. Do your own investigation by taking snap shots of secret documents. Take shots of competitor products at trade shows or retail stores. Sneak it in where cameras are never allowed like art museums, concerts and sporting events. 2MB memory is capable of storing up to 36, 160 x 120 pixel images. Even has a voice function that "tells" you how many images have been taken and when it has been turned on or off. Includes software and serial cable (RS-232) for downloading images to PC. Oh, it also has a real built-in pen so you can actually look like you're writing. With the Digital Pen Spy Cam the possibilities are as endless as your imagination. [more details](#)

- Thermo-Sensitive Memory Foam Office Chair Cushion - Our revolutionary seat cushion utilizes one of the most fantastic inventions to come out of NASA's laboratories in years - "Memory Foam". The SÖVA Therapy Memory Foam Visco-Elastic Seat Cushion utilizes Thermo-Sensitive properties to provide contouring support according to natural body heat. That means it conforms and changes shape to accommodate any body shape or position. Studies show that 80% of the population begins to see the deteriorating effects of bad posture around age 60. That means most of us will end up with the debilitating and painful effects associated with spine and disc compression as we enter our golden years. The memory foam office chair cushion is the first orthopedic cushion to alleviate pressure that causes harmful back strain and permanently damaging spinal conditions. If you're like many of us who spend hours at a time sitting in a chair at a computer than you've probably experienced some form of back pain. This is the one cushion you should own. No more pressure on your spine from disjointed vertebra. No more standing up after a long day and having a sharp pain jolt through your body. Now you can finally work relatively pain free. And it can be adjusted for any height and fits multiple seat designs. It's also portable so you take the most comfortable seating cushion ever invented anywhere you go. In your car, at the ball game or anywhere you want a more comfortable place to sit. Dimensions: 15" x 16" x 6". Pain free seating has finally arrived from SÖVA Therapy. [more details](#)
- Levitating Floating Globe - Mini (4" globe) - It's pure magic. Our 4" plug in electromagnetic globe levitates and slowly spins on your desk, commands the attention of anyone within eyesight. The ultimate conversation piece, the electromagnetic levitating globe floats in thin air, seemingly defying the laws of gravity. As the world turns, suspended in air, you and your visitors will marvel at the ingenuity of electromagnetic levitation. At just over 4" round, it's a colorful and detailed globe of the world, just like those you've seen many sizes larger. Electromagnetic levitation -"maglev"--is the same principle behind the high-speed trains in Germany, Switzerland and Japan, among others. Don't pass this up as an executive gift, no one will forget who gave them a floating globe. The same principle of electromagnetic suspension used in our levitation globe may one day take us to Mars! - 2.4 Ghz Wireless Audio/Video Sender - Electronic freedom is finally here. You've already hooked up cable or satellite television in the living room. The question now is how do you watch your favorite show in the bedroom, den, kitchen or anywhere else you might have a television? Without the high cost of purchasing other cable boxes or DVD players? Simple. Just plug in the most powerful 2.4GHz Wireless A/V sender available. Start by connecting the wireless transmitter to your main cable or satellite box, DVD player or television. Then all you have to do is connect the wireless receiver to any television set in the house. Just like that you'll be able to finally watch the latest episode of HBO's Sopranos from the comfort of your bedroom or TLC's Trading Spaces in the kitchen. Or better yet send a signal from your DVD player to any TV set so you can watch your favorite action movie wherever you like. And the uses don't stop there. You can even transmit a television signal to your stereo, or a radio or stereo signal to your television. Powerful 2.4GHz transmitter easily sends a signal through walls, ceilings and doors to any room in the house. 2.4GHz A/V system includes everything you need. System comes with Transmitter, Receiver, IR Extender, 2 AC Adapters, 2 sets of RCA Cables and User's manual. [more details](#)

- Rechargeable Flashlight Stun Gun with Siren - Does unknown evil lurk in the darkness? In today's uncertain world you can never be too prepared for unseen danger. A rape occurs every 30 minutes in the U.S.. Now you can stop bad guys with a powerful electric jolt and set off a deafening siren to get peoples attention. Super bright 280,000lux Nichia bulb flashlight can be seen from up to a mile. The Multi-Function Rechargeable Flashlight Stun Gun is a device everyone should have in case of danger. With a typical stun gun a shady character is always ready to break through your defense because they can see it before hand. Because this stun gun is masked to look exactly like an innocent looking flashlight the bad guy will be caught off guard. A quick zap with a powerful electric charge and he won't know what hit him. And at 80KV it packs a wallop. A moderate blast of 1 to 3 seconds will cause an attacker to fall to the ground and result in minor metal disorientation. A full charge of 3 to 6 seconds will fully immobilize the attacker, in most cases causing a loss of balance and severe disorientation, putting them on the ground, dazed and weak for several minutes. Built-in 130 decibel siren and super bright Nichia light provides a second line of defense. Also comes with it's own carrying case that can be attached to your belt or purse strap. This ultra light-weight stun gun is powered by a built-in 3.6v rechargeable battery. You need real protection in a dangerous world. Includes Ni-MH rechargeable battery and charging cord. - Multi-Function Video Phone Security System - You've seen reporters transmit intense images of war half way around the world to international news networks with the use of videophones. Imagine what you could do from the comfort of your own home or office. How wonderful would it be if you could actually see the person you were talking with at the other end? Think of being able to see the kids off at college or mom and dad living in another city. You can see conversations with family, friends, business associates and clients. Tech phobic folks will never find it intimidating to set up or use. It's as easy as using an ordinary phone. No complicated Internet or computer hook-up. Just plug it into any power outlet and connect a phone line. That's all there is to it. Even gives you the ability to record your visual conversations for nostalgic or record keeping purposes. How many times have you gotten off a conference call and wondered if you forgot to make note of something? Just plug the videophone into any VCR and record the entire conversation. Then play it back to make notes in your spare time. Better yet, play back a special conversation you had over the videophone with your parents, kids or best friends. Do have a family member that can't make it to the big holiday gathering but wants to see everyone? Just connect the videophone to a television so everyone in the room can see who's on the other line. **PROFESSIONAL USE:** Give a sales presentation over the phone. Video Phone can even be plugged into a television or monitor so large groups can see your presentation. Telecommuters can now stay in visual contact with their main office and clients from a home office. Companies with multiple offices can stay in contact and have long distance meetings via the videophone. There's nothing like eliminating the expense of hotel accommodations and plane tickets. But compact enough to travel anywhere. **PERSONAL USE:** You've moved to Los Angeles, California for a new job while your parents retired in Naples, Florida. Now the only time you see each other is during the holidays. But with the videophone you can now see your parents every day. Your kids are off to college. With the videophone you can be reassured that everything is okay. And you can keep them from getting home sick. Don't just call grandma to wish her a happy birthday. Get the whole family on the videophone to see each other. Who says long distance love affairs never last? They'll last longer if you can actually see the person you care about as if they were sitting right next to you. Measures: 8.5 x 9 x 2.5 Weighs: 6.5 lbs. [more details](#)

- **Hula Hooper Exercise Equipment** - Remember when you were a kid doing the hula? A lot of things have changed since then. Like technology. And of course learning the importance of staying healthy. So imagine our excitement at discovering that a favorite toy from our youth had been updated to a modern exercise machine. Just strap the Hula Hooper to your waste and start gyrating your hips. Watch as the steel ball starts to loop around the outer tube of this fun, futuristic, fat burner. Within moments you'll literally start to watch the calories burn off. Just enter the number of calories you'd like to burn and then watch as it counts down to zero with each exciting revolution of the ball. Turn on the melody for some groovy tunes. LCD display tracks the number of times the steel ball makes a complete loop along with the number of burned calories. Turn the lights off and watch as the Hula Hooper lights up each time the ball goes around. Getting fit hasn't been this fun since... well& we were kids. Which is why this also makes a great toy for kids as well. [more details](#)
- **6-in-1 Hidden Camera Detector** - Keep yourself and your loved ones safe anywhere! The ultimate, non-lethal protection device fits in your pocket, has six security functions you can activate with one touch (1) Check to see if Big Brother is watching you--wave the 6-in-1 hidden camera detector around a room or office and it will let you know if you're being secretly taped. (2) Your wife is in a parking lot and a man lunges for her purse. At the push of a button, she can set off a 110db siren that alerts everyone around her and the would-be thief disappears--fast. (3) The family's on a vacation trip, and before you go into a restaurant, you clip the personal security device to any door or window frame. Someone tries to pick the lock, and you hear the alarm go off. By the time you get outside, the potential thief is long gone. (4) Your teenage daughter is just starting college, and an attacker springs out of the bushes and attempts to grab her. In an instant, she's released a powerful pepper spray and he's disabled long enough for help to come. (5) You're lost on a dark city street, and you sense someone lurking behind you. Activate the brilliant 20 lux flashlight, and whoever it was stalking you is gone in an instant. Now you can see your way clear to a safer area. (6) You and your buddies are at the Big Game, and you don't even realize someone has picked your pocket until you hear the siren go off--it activates if anyone tries the steal it. The pick pocket drops the device in a second and he's out of sight by the time it's safe in your hands again. The most popular security device in Japan, the 6-in-1 Camera Detector is so affordably priced you can give one to each of your loved ones. It's a small price to pay for peace of mind. - **Solar Powered 2.4GHz Wireless Color Camera** - A security camera with listening device so advanced it never needs batteries or wires. Yet so uncomplicated a child could set it up and use it. Simply set the camera in a desired location where sunlight is present, plug the receiver into an existing television set or monitor and begin watching full color images with sound. Now that's what we call user friendly. Because this security camera is completely wire free and uses it's own renewable power source you can place it virtually anywhere contact with sunlight is made. Powerful 2.4GHz transmitter allows it to send a constant "visual" with "sound" from a football field away (300 ft.). No one will ever suspect that you are able to "watch" and "hear" in places where there is no power available. Infrared motion sensor even triggers an audible alarm on the base station when movement is detected by the camera. Doesn't even require a separate monitor. Just plug it into any existing television set. You can even plug it into your VCR and have it only record when infra red sensor is triggered by movement. Camera is also completely weatherproof. That means it can take a constant beating from the sun's rays, rain, snow or anything Mother Nature throws at it. Now you have the power to secure any part of your property. Make a parking lot more secure for your employees. Monitor a campsite or boat dock. Worried about thieves coming into your backyard or wild animals climbing into your trash? Now you'll be able to nab any perpetrator on the ultimate candid camera. [more details](#)

- Monex Atomic Watch (Silver) - The Monex Digital Atomic Watch is a great choice for those who prefer their watches to be simple yet sophisticated rather than fussy and overdone. Like other radio-controlled timekeepers, the Monex receives an accurate signal from the U.S. Atomic Clock operated by the NIST (National Institute of Standards and Technology) in Colorado. It features atomic time with automatic standard time and Daylight Saving Time adjustment, a time display with running second hand, month, date, day-of-the-week. It has a 12/24 hour display format (it's your choice to go Standard or Military), a sharp and clear digital display, an EL backlight with 4-second delay and shower-proof water resistance. The Monex comes in a dark ionized gray or in silver--you won't be sorry, whichever one you purchase. [more details](#)
- Ultrasonic XL Jewelry Cleaner - Now your great, great grandmother's diamond rings, passed down through the generations will look as though they were just bought yesterday. It's the easiest way to get the deepest dirt and grime out of your favorite jewelry, glasses and even dentures. The power of the Ultrasonic Cleaner gets to places the tiny bristles of a toothbrush can't reach. How many times have you tried in vain to scrub the tiniest details of your favorite jewelry or the blades of an electric razor? Now you can drop in necklaces, earrings, rings, waterproof watches, shaver heads, collectable coins, paint sprayer nozzles, cutlery or anything with a hard to reach place. The sonic waves are gentle yet powerful enough to remove smudges and dirt from eyeglass lenses without damaging them. Stop wasting your time soaking dentures overnight. Just drop them in and flip the switch. Cleans down to the deepest crevices in minutes. Just add water and/or the appropriate detergent. Even opticians, medical labs, dentists and artists use the industrial power of the Ultrasonic Cleaner. Restore the luster to a pair of antique earrings or make your best silver cutlery sparkle again. The Ultrasonic Cleaner makes even the deepest cleaning possible. [more details](#)

- Telephone Voice Disguiser - There are plenty of reasons to change your voice. Safety is the main reason. A child, home alone could easily give the impression that a big burly man is hulking behind the front door to ward off strangers. Maybe you'd like to play a hilarious prank on someone you know by calling them on the telephone and using a fake voice. Maybe you're doing your own investigation on a cheating mate. Imagine calling someone you know who might recognize your voice. But you need to get information without them knowing who you are. Just call them and speak in a different voice. They'll never know it's you. Imagine the fun you could have at Halloween or a costume party. You've always wanted to dress-up as Frankenstein's Monster or a menacing robot or even Dracula, but couldn't quite create the menacing voice to match. Now you can with this incredible device. Imagine the fun you could have reading children's books to your kids with the voice changer. A spooky book will have a whole new thrilling dimension if you read it aloud in a menacing voice. Admit it. You know you've always wanted to talk like Darth Vader or Robbie the Robot. Well now you can. [more details](#)

- RoboNagi Interactive Toy Robot - Your kids (or grandkids) can actually teach our Robonagi robots to sing, dance, talk to each other in Nagi or English, or play Simon Says with a live person! Wasn't it one of your favorite childhood fantasies to have your very own robot from another planet? You will be the coolest parent on the block if you can bring that fantasy to life, and with RoboNagi, you have that opportunity. The "intelligence" of this technological marvel of an interactive, robot-like toy is so amazing, even the most jaded adult will be smitten with this little guy, and no child will be able to resist it (and neither will you!). The more you love and care for your Robonagi, the more it will learn. It will provide infinite hours of educational, imaginative fun, because it is preprogrammed to "grow" and "change." The more you teach it, the more it can do! Each Robonagi is unique, with his own characteristics and personality! Each one will develop differently, because they each have their own individual personality, but they can all talk to a person or each other (in English or Nagi), sing and dance with a person or each other, move their arms, and play "Simon Says" and "Infrared Tag." Very importantly, they have "Instant Sleep" and "Instant Standby" modes (you choose their "quiet time"). Because of the many phrases they know, and their need to be "fed" and loved, they are perfect for teaching such things as responsibility and sensitivity to children. They come with a background story to get the all-important wheels of imagination turning. This is the most intellectually stimulating and FUN toy you've ever seen! They even come with their own trading cards! For more information, check out the RoboNagi website at <http://www.robonagi.com> If you welcome a RoboNagi into your home and a child's world, the only question is who will be happier: you, the child, or the RoboNagi? - 2.4 GHz Spy Kit Wireless Security Color TFT Camera--5" - Technology thought only to be attainable by military and spy agencies can now be used to monitor your home or business. A camera so tiny it's barely the size of a hummingbird yet powerful enough to send remarkably sharp, bright color images. At 2.4 GHz, this tiny wireless UHF color security system with LCD display lets you see and hear the world around you in complete secrecy. Imagine being able to keep a watchful eye on your home, office, children's room, or vehicles from a safe undetectable distance. System will even allow you to listen in because it's audio compatible. The 3 to 4 channel LCD display has an advanced color CMOS system with adjustable brightness, tint and color. You'll have the power to see in the clearest possible light. Barely the size of a pack of gum it can easily be concealed between books, behind a picture frame or within the shrubbery in a trellis. If your child is sick and in bed, you can check the TFT flat panel screen to see whether she's awake or asleep and hear all without intruding and without ever leaving your den or living room. Never worry about babysitters. One of a parent's worst nightmares is an abusive childcare provider. Are you concerned with employee theft in your warehouse or shoplifting in your retail space? Find out who

the perpetrators are, fast. A quick glance at the 5" LCD screen on your desk, and, thanks to this technologically advanced security system, you'll nab the thieves red-handed. Monitor disgruntled employees. Scan the screen to see visitors in the lobby, waiting room or showroom. Keep tabs on a sales presentation or business deal in private. You can take it anywhere. Keep an eye on a construction site or your RV at the campsite. Fully operational security system includes (1) camera with bracket, 2 UL adapters, monitor, and rechargeable battery pack. Capable of connecting up to four cameras at one time. Protect yourself, your family, and your business by observing the world around you. Measures: 3 1/2 x 3/4 x 7 1/2 [more details](#)

- Night Vision Glasses (Clip-On) - Driving at night is much more hazardous than daytime driving, especially when oncoming headlights are very bright. Thanks to the amber lenses of these gold-rimmed clip-on Night Vision glasses, you'll not only cut the glare, but the risk of accidents. Night Vision clip-ons are especially helpful when your eyes are fatigued from a lot of driving, and for older drivers whose night vision isn't as keen. These specialized anti-glare glasses give you superior viewing in the dark by filtering blue light and preserving a natural balance of colors. They're also helpful in haze, fog or rain, giving you sharper contrast and detail. The side lenses filter and enhance peripheral vision as well. [more details](#)
- Phonograph CD Player with AM/FM Radio w/ Remote Control - Obviously we love modern design as much as the next person. But what about the person who prefers classic design? After nearly 100 years we thought it was time to reintroduce this American classic. The reasons why? A little bit of nostalgia for the good ole days of early Americana and ingenuity as well as a desperate need for a CD player and radio that didn't clash violently with classic home décor. Remember the movie "Back to the Future"? The hero didn't quite fit in when he got whisked back in time. If a portable CD player seemed out of place with the wild styles of the 1950s just imagine what today's stereo would look like in Victorian England. You get the idea. You may have furniture that would make Teddy Roosevelt feel right at home. But just picture Theodore reaching over to listen to that UFO inspired silver plastic stereo sitting on your Louis XVI buffet. Not a pretty image. Just stroll the aisles of your local electronic store and you'll see the difficulty in finding a radio that fits in with pre 20th century home décor. Of course we kept the basic concept of Edison's original design intact. But instead of a phonograph we inserted a CD player and AM/FM Radio. We also added a remote control. And finally the one thing that brought back all the old memories? An incredibly recreated, handmade wooden case. The interior has the appearance of the original right down to the built-in lamps and tuner knobs. Now you can enjoy the look and feel of an original Edison design but with today's modern convenience. Dimensions: (H) 12.5" x (W) 16" x (D) 14.5". [more details](#)

- Solar Garden Decor - There's nothing worse than hearing that your guests were late because they couldn't see your house number. Well, actually there are many worse things. Like having the delivery guy arrive with cold pizza for the same reason. But cold food we can live with. However, making the police or fire department waste valuable time trying to find your home can sometimes mean the difference between life and death. Imagine a good citizen trying to report a burglary or fire at your home and not being able to see your house number. Every moment counts. Whether your house numbers are hidden behind tree branches or lost in the shadows, the solar house number light is a great way to make them easier to read at night. The stone style design looks sharp with any architectural style. 2 Ni-Cad (Nickel Cadmium) AA rechargeable batteries are included and preinstalled. During the day the solar panel converts sunlight into electricity and recharges the batteries. 6 hours of sunlight exposure will provide up to 15 hours of nighttime illumination. Includes 50 numbers (five each of numbers "0" thru "9") giving you a full range of numerical combinations. It's important to make sure your house number is clearly visible in case of emergencies. What better way to showcase your house number than with a sharply designed, self charging, solar house light. And hey, no more cold pizza. Dimensions: 13" x 6" x 4". [more details](#)

- Steinhausen Watch - We traveled back in time to bring you this rarely seen masterpiece. In fact, this classic watch was nearly lost to history books. In 1923 a small European watchmaker in the little known region of Steinhausen started manufacturing this rare timepiece. So rare in fact that only 7 of these timepieces were ever made - entirely by hand. Watch antique experts and historians have estimated that an original Steinhausen would have a value of well over \$300,000 today. Beyond the breathtakingly detailed design what makes the Steinhausen unique? The Steinhausen was one of the first watches with the ability to display day, month and date with stars and moon graphically depicting AM and PM. No one has ever attempted to recreate this classic original until now. Every facet of this incredibly handsome timepiece has been painstakingly reproduced down to every detail including the graceful, sweeping second hand movement. The uniquely shaped case and buttons are crafted of brushed and polished stainless steel. The handsome ivory face is accentuated by striking roman numerals. Of course it was also updated with kinetic power. Just like the original mechanical movement designed by inventor John Harwood in 1923, this 35 jewel mechanical automatic rewinding watch never needs batteries and never needs to be wound. It is constantly charging itself with the movement of your body. Every detail was carefully engineered to replicate the original classic. With a limited edition issue it will not be long before this classic disappears for another 80 years. Also includes both brown and black interchangeable fine leather wristbands for different looks. Comes housed in a handsome felt lined wood box with cherry stain finish. Here is your once-in-a-lifetime chance to wear a one-of-a-kind automatic Steinhausen classic valued well over \$1,000.00 for just \$200.00. [more details](#)

- Rattan with rawhide means McGuire Furniture Company. Rawhide, the toughest animal substance known is pulled wet around screw-wedged doweled joints. As the rawhide dries, it shrinks and forms a bond that will never loosen. Rattan, a solid jungle vine from the Far East, is flexible and tough. It will never splinter or break. Once molded, solid rattan retains its contours permanently. By combining the rugged strength of rawhide with the natural beauty of the finest grade rattan poles, McGuire has created a line of furniture like no other. This is why people acquire McGuire: it is built to last. [more details](#)

- Tom Hopkins - Low Profile Selling - Building profitable relationships for maximum results The key to selling is to build long-lasting relationships with the customers and this program will help with that. How would you like to sell at over 400% of your quota and increase your personal income by over \$175,000? That's what Gerald H. Grossman did. He was only... "How would you like to sell at over 400% of your quota and increase your personal income by over \$175,000? That's what Gerald H. Grossman did. He was only earning \$25,000 a year when he began applying the principles in this sales-generating program. Almost instantly he dramatically improved his closing ratio. Today he is one of The Wheatley group's most successful sales representatives...with an income of about \$200,000 as year. The new breed of sales professional plays the role of expert advisor, listener, empathizer, and industry specialist. Acknowledging this shift, master sales trainer Tom Hopkins had softened his famed old-school approach to selling with new techniques that work in today's market. The ultimate ice-breaker, this powerful program will help you increase your sales and self-confidence by building the kind of profitable relationships that build business. Tom will discuss how to sell into the next millennium." Six Audiocassettes Plus a Workbook \$79.95 [more details](#)

- Denis Waitley - How to Handle Conflict and Manage Anger - Wherever You Have Involved, Concerned People, You'll Have Conflict and Anger Gain control of your emotions! Now Denis Waitley shows you how to stay calm, cool and collected at all times by controlling the effect of change. Listen and learn as... "Life is too complex for anyone to expect to exist in a perennial state of harmony and bliss. The reality is that in the daily push and pull of our lives there are many sources of conflict and anger. Despite the negative image, however, conflict and anger need not erupt in disaster. They can often be opportunities for developing new skills, furthering personal improvement and growing toward full potential. But you must take advantage of them. Because of lifelong beliefs that conflict and anger are "bad" reactions to be avoided or merely survived, few of us have learned to handle either of them productively or to make the most of the opportunities they provide. How to Handle Conflict and Manage Anger is based on one of the best-selling seminars developed by the National Seminars Group. In it, Denis Waitley discusses the proposition that it's not so much what happens in our daily lives that matters, but how we perceive and respond to those events that determines our success or failure. He examines the effects of continual change in our personal and professional lives. He counsels that anger is a choice we make, not an event that simply happens. And he confronts what he considers the two most important issues in human relations: understanding each other and dealing effectively with our disagreements. On this journey to increased self-knowledge and greater self-control, Denis Waitley teaches: • 5 myths about anger and conflict – and what the truth really is. • 4 steps that will keep you cool, calm and in control most of the time. • 5 conflict-escalating words that should be avoided at all costs. • 5 styles of conflict management: dominator, compromiser, withdrawer, and collaborator. • 10 conflict-resolution skills everyone must know. • 6 tips on handling harassment and hardball tactics. • 7 negotiating styles. In a powerful, practical fashion, and employing numerous examples and real-life stories, Denis Waitley explodes the misconceptions and establishes the facts about two of the most misunderstand – and ultimately useful – constants we must face in our lives. How to Handle Conflict and Manage Anger serves anyone seeking personal and professional growth, revealing the skills essential to taking what life has to offer and incorporating them in the drive to success." - Neil Fiore - Conquering Procrastination - How to Stop Stalling and Start Achieving Put time on your side *Conquering Procrastination: How to Stop Stalling and Start Achieving* has the solutions to defeating procrastination and making time a positive force in your life. "Tick, tick, tick, tick . . . that's the sound of time slipping away, the loss of productivity, the retreat from your goal of peak performance. It's the sound of your most thorny problem: procrastination. There are many misconceptions about procrastination, perhaps the greatest of which is viewing it as some sort of disease, an intractable illness that just won't go away. Nothing, in fact, could be further from the truth. Procrastination is something that everyone does sometimes. And no one should live with it forever. Procrastination is a natural, manageable response to predictable forces. *Conquering Procrastination: How to Stop Stalling and Start Achieving* has the solutions to defeating procrastination and making time a positive force in your life. Dr. Neil Fiore helps you recognize the three fears most commonly at procrastination's core—fear of being controlled, fear of being judged, fear of missing out on the good things in life. By learning about them and understanding them, you can put them to work for you and not against you. In his strategic program for overcoming procrastination, Dr. Fiore teaches you not to fear failure. Instead, he supplies valuable lessons on how to manage stress and develop the self-discipline to deal with excuses, perfectionism, and comfort zones. You'll learn how to: • Use self-talk to respond to counterproductive internal messages • Make worry work for you • Schedule guilt-free play as a

motivating method • Set realistic goals so that you can meet important deadlines • Use the flow state to become more focused, energized and concentrated • Plan for setbacks, so they don't slow you down • Use the four C's—Choice, Creating safety, Commitment, and Centering — to conquer procrastination • Use three-dimensional thinking to devise a step-by-step calendar of your path to achievement Learn to make the clock just another yardstick for measuring your further successes. With the proven techniques revealed in *Conquering Procrastination: How to Stop Stalling and Start Achieving*, you'll eliminate the causes and effects of procrastination — and take advantage of time instead of letting it take advantage of you." 6 Audiocassettes/ Workbook \$69.95 [more details](#)

- Paul Pearsall, Ph.D. - The Pleasure Principle - Let Health Happen! "Are health and fitness accomplished only through hard work, sacrifice and self-denial? No way! In a delightfully contrariant and fully researched rebuttal to the sometimes frightening and usually boring do's..." "You're health and fitness accomplished only through hard work, sacrifice and self-denial? No way! So kick back and have another slice of pizza— extra cheese if you like. In a delightfully contrariant and fully researched rebuttal to the sometimes frightening and usually boring do's and don'ts associated with achieving and maintaining good health, Dr. Paul Pearsall offers a palatable, pleasurable prescription for living a healthy, happy life. The Pleasure Principle: Discovering a New Way to Health is a well-reasoned plea for a sane approach to fitness and vitality. A generous mix of live lectures and seminars, studio recordings and Hawaiian music, this audiocassette program proves that by pursuing our natural neurological preference for pleasure—a healthy hedonism—we can enhance our immunity, strengthen our hearts and lengthen our lives. Using new research from the field of psychoneuroimmunology, Dr. Pearsall goes beyond the Spartan “no pain, no gain” philosophy to one most aptly described as “no bliss, no benefit”—if you enjoy it, it's good for you. Instead of stripping joyful activities from our lives, he encourages us to enjoy them in moderation. The key, he says, is balance. Discover how you can literally let good health “happen” to you by learning: • The purpose and use of one of your most important senses—your pleasure template. • The personal, interpersonal, transpersonal, temporal and sensual pleasure paths to health. • The difference between rational, healthy hedonism and irrational, unhealthy excess. • To laugh, love and live rather than lap, lift and lose. • The importance of touch, humor and crying. • The power of doing fun-ins instead of work-outs. The simple pleasures of daily living, those that we so often have little time for, are the real purpose and process of life. These are the pleasures we must pursue in order to improve the quality—and length—of our existence. And these are at the heart of Dr. Pearsall's humane, revisionist wisdom. The Pleasure Principle: Discovering a New Way to Health is just what the doctor ordered—it and that extra slice of pizza. So enjoy already." Six Audiocassettes plus Planner \$69.95 [more details](#)

- Jon Kabat-Zinn - Mindfulness Meditation - Cultivating the Wisdom of Your Body and Mind Cultivate Mindfulness, Enrich Your Life Have you ever had a long and heated argument with somebody about some sticky issues at work, only to find at some point that you are alone in the car... "Has this ever happened to you while driving to work: you have a long and heated argument with somebody about some sticky issue at work, only to find at some point that you are alone in the car? So far, the meeting and the argument are taking place only in your own mind! But you are already tense, perhaps even angry, feeling the stress of events that may not happen at all, or that will no doubt unfold differently from the way you have imagined. Afterwards, you can barely remember how you got to work. You certainly weren't all there for the ride. Or, you come out of a meeting in which you failed to speak up. Then you spend the rest of the day arguing your points with people in your mind. The meeting is over, but you are experiencing the stress of these mental arguments for the rest of the day. They are going nowhere, and you are out of touch, lost in a fog of your own creation—however important the real issues may be. Sounds familiar? You're not alone. We all spend much of our lives unconsciously absorbed in a future that hasn't happened yet or in a past that is already gone . . . and in the process, spend much of the day out of touch with the present moment, which is the only time we ever get in which to live or act. And so, we can easily miss out on the opportunities that the present moment is constantly offering us. Certainly, mental rehearsal and thoughtful reflection can be useful at times. But there are better ways to do it than through the haze of unconscious preoccupation and absorption. If you have real problems, it will be important to work with them with a clear mind. If you are routinely out of touch with the

present, you may miss more than the morning commute. You might be thinking of other things while playing with your children, lost in thought when you are with friends, missing tender moments with your lover, oblivious to the beauty of a sunny day or the place you are in . . . in short, missing out on life. Mindfulness Meditation is about learning to experience life fully as it unfolds—moment by moment. One popular misconception about meditation is that it is a way to make your mind blank so you can escape from what you are feeling. However, author Dr. Jon Kabat-Zinn wants you to understand that meditation is an invitation to wake up, experience the fullness of your life, and transform your relationship with your problems, your fears, and any pain and stress in your life so that they don't wind up controlling you and eroding the quality of your life and your creativity. It is not about running away, or manipulating mental states. Through the practice of mindfulness, you can learn to develop greater calmness, clarity and insight in facing and embracing all your life experiences, even life's trials, and turning them into occasions for learning, growing and deepening your own strength and wisdom. In this program, internationally-known meditation teacher Dr. Jon Kabat-Zinn shows you how to:

- Access your own deep inner resources for learning, growing and healing
- Enrich your experience of everyday living by being fully present in the moment
- Reduce stress by responding creatively rather than reacting mindlessly
- Bring greater clarity and understanding to everything you do
- Function more effectively within your apparent limitations and problems by cultivating your fundamental strengths
- Reestablish contact with your physical body to heighten and expand experiences of pleasure and vitality
- Reduce or overcome addictive or self-destructive behavior patterns
- Develop a strong daily meditation practice

Mindfulness Meditation can give you back a high degree of control in your life, beyond the automatic actions and reactions that so often drive our behavior. It can free you from being stuck in fear or uncertainty and help you to take life on as an adventure in growth and learning and feeling. Begin listening today, and discover what it's like to see the world you actually have, not the one you think you are missing, and to live the life that is yours to live in its fullness, moment by moment and day by day." 6 Audiocassettes plus a Bonus Pamphlet and Cassette \$69.95 [more details](#)

- Dr. Joan Borysenko - The Power of the Mind to Heal - Renewing Body, Mind and Spirit You hold the key to physical, emotional and spiritual healing within your remarkable mind. You hold the key to physical, emotional, and spiritual healing within your remarkable mind. Healing is the simplest of matters. We heal by becoming truly ourselves, by discovering our wholeness... "According to Joan Borysenko, healing is really the simplest of matters. We heal by becoming truly ourselves, by discovering our wholeness. The process of healing is one of self-realization. It is a peeling away from the fears, concepts and negativity that obscure the light of our own true nature and its innate essence of compassion, creativity, wisdom and love. As negativity is transformed, the physical body often heals as well. Life is an exacting teacher, constantly challenging you to transcend your fears and find your essence. Broken relationships, shattered faith and death itself invite you to find an inner wellspring of strength and understanding—a living spirituality. In the process, you recognize that your growth contributes to the growth of all beings—that healing is a powerful act of service for the world. Drawn both from modern psychology and the great spiritual traditions of the world, The Power of the Mind to Heal is an audio cassette guide that presents transformative methods of overcoming negative patterns and finding the higher self. You will participate in thought provoking exercises and guided meditations that provide a path for emotional healing and daily spiritual practice. Dr. Borysenko, A Harvard-trained medical scientist as well as an expert in psychology and mind/body medicine—teaches through compelling examples and deeply moving stories. Listen as Dr. Borysenko teaches you to: • Gain greater inner peace through insight into the meaning of your experiences. • Develop a spiritual framework that can transform your life and relationships. • Understand your ego and the way it creates fear. • Learn to overcome fear and experience the peace, wisdom, joy and love of your own true nature, your higher self. • Liberate yourself from feelings of guilt, blame and remorse. • Develop a philosophy of compassion and forgiveness—for others and yourself. • Develop a daily practice of meditation and prayer that will strengthen your conscious connection to the Divine. Listen to this program and you will be delighted, inspired, instructed and uplifted. Work with this program and you can help heal obstructing emotional patterns. Commit to a practice of mindfulness, meditation and prayer and you can heal not only your own soul, but become a healing influence on others as well." 6 Audiocassettes/ 7 Reminder Cards \$69.95 [more details](#)

- Michael E. Gerber - The E-Myth Seminar - Success is in the System! "Did you know that eighty percent of all businesses fail in their first five years? When you have to face these kinds of odds, you'd better know what you are..." "Eighty percent of all businesses fail in their first five years! When you are facing down those kind of odds, you'd better know exactly what you are doing before you take the plunge. Business guru Michael Gerber knows that most small-business enterprisers are not getting what they want out of their businesses. And the chances are slim that they ever will—because the majority of business owners are missing the fundamental point: The sole and specific reason to build your own business is to provide you with a better life—and more of it. Period. Great businesses take ordinary people and leverage them with extraordinary systems. Michael Gerber will give you the practical know-how to build your own system and to become a "Business Development Specialist." Success lies in the system! Gerber knows that for a business to be prosperous it must function like a powerful machine. The type of business is irrelevant—a precise system of dynamic interplay between the connected parts should be in place. The well-planned system will, once started, chug along continually and predictably, transporting you to the better life of which you've only dreamed. After all, your business should make it possible for you to do whatever you wish, whenever you wish, while continuing to produce exceptional results. . . without you! That is your fundamental goal—dispensability! Gerber will: • Show you the Three Essential Components of Business Development—Innovation, Quantification, and Orchestration. • Teach you the important questions to ask in order to nurture an extraordinary business. • Reveal the five skills vital to the entrepreneur—Discrimination, Concentration, Organization, Innovation and Communication. Gerber's refined techniques for entrepreneurs enumerate how to successfully build a business that will soar in both booming and sagging economic markets. Learn to focus on the results, not the work, and to see your business as your product. You'll also hear: Gerber's 7 Steps of Business Development: Development of your Primary Aim Development of your Business Picture Organizational Development Management Development People Development Marketing Development Systems Development Let Michael Gerber teach you to work on your business, not in it, to create a perfect turnkey operation—a perfect money machine—that delivers predictable results, day after day, whether you are there or not." 6 Audiocassettes \$69.95 [more details](#)

The... "If you want one year of prosperity, grow grain. If you want ten years of prosperity, grow trees. If you want one hundred years of prosperity, grow people." In How to Build a Network of Power Relationships, world-renowned author Harvey Mackay reveals that success in business and in life is embodied in the interpersonal relationships we make. "The most important word in the dictionary is people," Mackay tells us. "If I had to name the single characteristic shared by all truly successful individuals, I'd say it's the ability to create and nurture a network of contacts." While Harvey can't promise you a whole new personality, he can train you in his time-tested tips and techniques for building power relationships that will last a lifetime. Success doesn't happen by accident. The habits of success must be learned and practiced until they become permanent. Developing people skills, personality, and the ability to communicate will change your life for the better, forever. To succeed in business, or any arena, you must be able to make things happen. You have to think big, think bold, think creatively,

think in quantum leaps. The key to “seeing around corners” is to tap into the eyes, ears, hearts, and minds of the people who can help you the most—the people who are part of your personal network. John D. Rockefeller once said he would pay more for the ability to get along with people than for any other skill. Unfortunately, it’s a skill that can’t be bought. But it can be taught! In *How to Build a Network of Power Relationships*, Harvey Mackay will show you:

- Why caring is contagious and how it creates a self-fulfilling prophecy in networking
- How to “see around corners” with eight proven networking techniques that put you ahead of the curve
- That little things don’t mean a lot, they mean everything in dealing with people
- How to break down barriers to networking in just thirty days
- Five ways to beat one of the greatest human fears: rejection
- How to sell yourself by putting the “wow” in communication
- Ten can’t-miss tips for tackling the job market

Remember, we all start out in life with one thing in common: we all have the same amount of time...it’s just a matter of what we do with it. The best way we can spend our precious time is on our relationships. Life is a challenge. Finding a job, raising a child, finishing school, getting a promotion, achieving our goals—everyday we have to beat the odds in a complicated world. Fortunately, we are not alone. Other people are there, willing and able to lend a hand. All we have to do is ask. In the long run, we will only be as strong and as successful as our relationships." 6 audiocassettes plus a free Rolodex Network Builder Book \$69.95 [more details](#)

- Brian Tracy - *Master Strategies for Higher Achievement - The Age of Opportunity Is Knocking* Economists believe we're entering 'The Golden Age' - a period of greater affluence than any other time in history. More scientists and inventors are producing a wider variety of goods and... "According to Brian Tracy, we are entering into the golden age of mankind. The evidence for his conclusions are all around us and are very exciting to the independent thinker. For example, there are more inventors, creative geniuses, engineers, entrepreneurs and companies producing more and different goods and services today than ever before existed. Every one of these advances opens up countless doors of opportunities to those poised to take advantage of them. People and companies that can respond in an entrepreneurial way to the rapid changes taking place will get a piece of the action. Those who can't will quickly reach obsolescence. To prepare yourself you need to make the switch from corporate strategic planning to personal strategic planning. The days when a young person could latch on to a large company and spend their career climbing through the ranks is nearing an end. You must learn to chart your future with goals and skills that make you an independent operator, someone who can do the job you were hired to do and then move on to the next challenge. In Brian's approach, the product that needs continually to be updated, to be frequently re-launched as "New and Improved," is you. In *Master Strategies for Higher Achievement*, Brian Tracy provides advice and challenges that will help you move to the next level, to increase your personal value, and with it your personal fortune. You'll learn the master skills of success that will shift your personal potential from limited to absolutely unlimited. Brian will teach you how to:
 - Channel the natural flow of capital (from investors to good ideas) in your direction
 - Use "Zero-Based Thinking" to organize your money and time
 - Double the hit ratio on your goals using the GOSPA Model
 - Trade time for money without giving up more than you can afford
 - Use the "Four Key Questions" to continually evaluate your performance
 - Achieve financial independence so that you never waste time on money worries
 - Evaluate your progress using happiness as the inner barometer
 - Allow ethical and spiritual development to fuel your development in all other areas
 With Brian Tracy's *Master Strategies for Higher Achievement*, you'll become someone who expertly navigates their future constantly adjusting and re-adjusting for changes in climate, tides and resources. You'll go from focusing on your goals to continually re-focusing, and move from evaluating your life to continually reevaluating yourself, your talents, and abilities to make sure you are on the track you want to be. - Larry Dossey - The Power of Prayer - Connecting with the Wisdom of the Universe Cultivate a spirit of prayerfulness and enhance your life with joy *The Power of Prayer* is a program in which you'll find both the practical and the sublime. It can shake your understanding of the world and stretch your creative imagination. "Common sense tells us that we are beings made up of physical matter, that we have no special powers other than those granted by the laws of nature. However, one of the most important recent discoveries in science tells us we are capable of changing our physical world across dimensions of time and space simply by using our minds. *The Power of Prayer* is about accessing this incredible power by reaching within yourself. It's about accessing it in a way that mankind has used since the beginning of time. Accessing it in a way you may already be very familiar and comfortable with — through prayer. This program a personal journey exploring the link between science and spirituality. Recounted by medical doctor Larry Dossey, M.D., he leads you through the same realizations that have profoundly changed his own life and his understanding of the natural world and what our role is as humans in it. He begins this program: "" I was actually stunned to discover that scientific evidence supported prayer. And I faced an ethical and a moral decision as a doctor at that point. The evidence was so powerful that if I didn't pray for my patients, this would be equivalent to withholding a potent medication or surgical procedure." Prayer is a deeply personal and individual process. You'll get no prayer prescription from Dr. Dossey. The evidence shows that no one religion has a monopoly on prayer's effectiveness. Anyone—whether Christian, Jewish, Buddhist, Muslim, agnostic, or atheist—who has a compassionate, empathic, and loving attitude toward who they are praying for will find results. Whether you believe the power comes from within , or from the external power of the god of your

faith . . . the facts show that the power is there, waiting for you to access it. You'll discover that you have the power to create change in your life . . . that your prayers can be answered. Through an examination of the scientific experiments, anecdotal third-person accounts, and stories about his own experiences in the practice of medicine, Dr. Dossey will bring you to new assumptions about yourself and the spiritual nature within you. You'll discover:

- How to find an approach to prayer that is meaningful to you
- Specific factors that influence your prayer's effectiveness
- The important difference between curing and healing
- New ways to get into a state of prayerfulness and how to express yourself through prayer
- A new understanding of the illness or imperfections in yourself and others
- The power of love and empathy and how it can transcend space and time
- Five universal prayer techniques used by mystics
- The power of "letting go" and how to develop an "attitude of gratitude"
- How to make prayer a part of your daily rituals of life
- The extraordinary body of medical evidence on the power of prayer

The Power of Prayer is a program in which you'll find both the practical and the sublime. It can shake your understanding of the world and stretch your creative imagination." 6 Audiocassettes \$69.95 [more details](#)

- Barbara De Angelis, Ph.D. - Living With Purpose & Passion - How to Find the Magic in Real Moments Live Each Moment With Purpose and Passion! "Do you move through your days, months and years focusing not on where you are, but on where you're going? If you spend your life preparing for the future rather than enjoying the present, you'll never feel any sort of fulfillment. You'll end up postponing happiness, sometimes indefinitely. "There is a profound spiritual and emotional crisis in America," says Barbara De Angelis. "We're racing through our lives, preparing for the future, believing we'll be happy when we find the right partner or lose weight or buy a new home or get a promotion. But deep inside, we know something is missing. Couples feel like roommates instead of lovers. Weekends are filled with work and errands, so that it feels like we never have a day off. No matter how much we have, it never seems to be enough. And we wonder to ourselves, 'Is this all there is?'" In *Living with Purpose & Passion: How to Find the Magic in Real Moments*, Barbara explains how you can experience fulfillment and meaning in your life now, not when you have more money or find the perfect relationship or achieve your career goals, but in this and every moment. It's about how to rediscover real moments with your mate and your

children, real moments in your work and your play, and most of all, real moments with yourself. In this profound and insightful program, Barbara De Angelis will show you how to have real moments—and to use them to discover new and liberating truths about yourself. The program includes: • Rediscovering the passion and purpose in your relationship • How to bring work, love and play back into balance • Tools for experiencing everyday spirituality • How to tell if you're suffering from real moment deprivation • What both men and women need to have more real moments • Many more lessons and reminders about getting the most out of your life Spoken with wisdom, compassion and clarity, Living with Purpose & Passion is more than an uplifting program—it is a powerful invitation to transform your life and nourish your spirit." - Fredric Lehrman - Prosperity Consciousness - Are You Willing to Be Wealthy? Have you really examined your desires? Do you have a specific figure of money in mind that you would like to have? A specific goal? Do you have a creative... "A strange question? But think about it: Have you really examined your desires? Do you have a specific figure in mind? A specific goal? And a creative idea for reaching it? If not, you're only shooting arrows in the dark. Fredric Lehrman would like to teach you how to develop your prosperity consciousness. Too many people leave their financial future to others—"I could have more money, if only my boss were more generous"—or worse, to fate—"If only I could win the lottery." They spend time daydreaming about what could happen "if only . . .," without really understanding how they will ever reach their dreams. Fredric Lehrman wants you to know that the outcome of all your hopes and dreams lies in your beliefs, both conscious and unconscious. In other words, what you believe determines what you can achieve. Sound too simple? It is and it isn't . . . the most profound ideas are the easiest to understand, but not always the easiest to live by. You must succeed in a world of negative ideas, experiences, and people. And through it all, you must keep your dreams intact and alive. It is to help you overcome all the difficulties you will face that Fredric Lehrman created this course. Filled with techniques, skills, creative ideas, and stories to help you affirm and earn your future wealth, this course will help you learn how to: • Discover your underlying beliefs about money and how to change them • Plant affirmations in your mind like seeds in a garden • Use the Five Account System for practical money management • Learn to play "Prosperity Scrabble" as a way to evolve new money making ideas • Gain insights into the ancient practice of "tithing" as a way to increase money flow • Transform your surplus energy into a business that serves others • Channel the pipeline of wealth into all areas of your life • Have a stress-free relationship with money Money is a form of energy, and you can learn to master it by discovering how to turn on your prosperity consciousness. Listen to these tapes, and prepare to transform your life in ways you never expected before—become attuned to the flow of capital and channel that energy toward you!" 6 Audiocassettes \$69.95 [more details](#)

Rob Locke
Television Presenter" "'I've been on one diet after another for as long as I can remember and I always ended up fatter than when I started." Rob Locke Television Presenter TV presenter Rob Locke had almost given up on his lifelong battle against his weight. He moved from one diet to the next, usually he would lose a few pounds, always he would put it back on again... and more. As a TV presenter, his looks and more importantly, his confidence, were vital to the success of his career. But in 1998 Rob found himself 84lbs overweight, low in confidence, his career on a plateau and his relationship with his long-term girlfriend in tatters. Finally something good happened to him ... he hit rock bottom! At that moment he decided that he no longer wanted to look or feel the way he did. So he set about finding out why it was that some people seem "naturally thin" and some people "naturally fat". The answer he found astounded him because it was so simple — THIN PEOPLE EAT LESS THAN FAT PEOPLE! The only reason most people are overweight is because they overeat! As simple as that! Rob realized that he had spent his life fighting the wrong battle. Instead of jumping on the latest diet fad or fitness regime, he should have been learning

how to enjoy eating less. Viewers to his daily live TV show were stunned as they saw week-by-week, Rob shed 84lbs over a 9 month period. He received thousands of letters from viewers congratulating him, not only on how much better he looked, but also on how much more confident he appeared. Many viewers asked for advice on how to control their own weight. So he teamed up with the UK's leading personal development coaches to create Eat and Be Happy, a step - by - step program which shows you exactly how to....re-program your sub conscious to change the associations you have with food, enabling you to: * Eat all your favorite foods... without overeating * Achieve and maintain your ideal weight... without dieting, starving or depriving yourself" 6 Audiocassettes \$59.95 [more details](#)

This series captures Williamson at her best-in front of... "She has captivated live audiences around the world. Her books have been best-sellers. She has transformed the lives of such celebrities as Elizabeth Taylor and Oprah Winfrey. Now you can experience this great spiritual teacher in her own words. This uplifting series captures Marianne Williamson at her best—in front of a live audience—offering her insightful interpretation of A Course in Miracles, the revolutionary self-study program of spiritual psychotherapy. Just as A Course in Miracles teaches the acceptance of a thought system based on love instead of fear, so does Williamson promote a shift in thinking which leads to radical inner transformation. Her breakthrough messages explore pathways for change that will lead you to an entirely new understanding of your world. Her insightful and inspirational teachings show you how to live more fully and freely—intellectually, emotionally and psychologically. You'll be challenged to look at your feelings, thoughts and fears about love . . . to look beyond old patterns and past mistakes to find the true essence of yourself . . . to go beyond the idea of failure, to find what it means to achieve real success in this world . . . and to learn how to work for love and not money to achieve even greater rewards. You'll also learn how to: • Develop a "prosperity consciousness" • Experience miracles in your relationships with others • Build self-esteem and maintain a sense of connectedness • Develop your self-awareness and an awareness of God • Unlock your capacity for personal and professional success • View every new experience as an opportunity for growth This is what you'll find: On Success: You have the ability to radiate a definite power within you—a power that won't go unnoticed. You're empowered not by what you do, but by why you're doing it. Work is an overflow of your being—a personal expression of joy. On Money: Abundance is available to each of us. Money is energy , and energy is infinite in the universe. By doing what you love to do, you'll profit monetarily and in many other ways. On Communication: True communication is an open exchange of truth that involves listening, sharing and taking responsibility for our actions. A sense of separateness dissolves in the presence of real intimacy. On Self-Esteem: Build a sense of self on the foundation of awareness— of yourself without barriers. You can find emotional fulfillment by looking beyond old patterns. On Love: Real love is participating in those activities which will bring winning results for everyone. The more love you add to your relationships, the more love is available to you. On Relationships: The only way to achieve happiness is to fully develop your relationship with the universe. Every relationship holds

the opportunity for growth, enabling you to create a more peaceful and loving world. Just listening to Williamson—who draws on metaphysics, Jungian psychology, personal analogies and humorous anecdotes—is a revelation in itself. With her exciting style and charismatic personality, you'll find yourself listening to these tapes again and again." Six Audiocassettes \$69.95 [more details](#)

- Dr. Deepak Chopra - Journey to the Boundless - Exploring the Intimate Connection Between Your Mind, Body, and Spirit Are You Ready to Step into the Boundless? Modern science tells us that we live in a universe with no edges in space, with no beginning or ending in time. Eastern wisdom says we have a universe within... "Dear Friend, I would like to personally invite you to join me for a powerful experience of transformation. We will take a journey through an inner country that has to be discovered and created at the same time. The goal of this journey will be the end of an illusion. Instead of enclosing ourselves in the prison of time and space and squeezing our experience into the span of a lifetime, we will find out once and for all if our true nature is bounded or boundless. I invite you into a realm of infinite creativity and infinite possibilities—where anything is possible. - Deepak Chopra, M.D. Modern science tells us that we live in a universe with no edges in space, with no beginning or ending in time. Eastern wisdom says we have a universe within ourselves as profound, as infinite, as timeless as the world outside. Unbounded freedom permeates everything and yet we continue to live our lives as prisoners of fragmented values—prey to disease, unhappiness, and caught in the web of time. In this live seminar, Dr. Deepak Chopra helps us to break free of these conceptual boundaries and step into the boundless, which is pure potentiality, pure creativity, pure freedom, and pure joy. Using his unique style of spirituality, practicality, and humor, Dr. Chopra teaches that to understand the connection between ourselves and our environment, we must first understand the intimate connection between the body, mind, and spirit. Once this understanding is achieved, we can regain the universe within. We can live at a level where all dreams come true, a place that is home to perfect health and happiness. In Journey to the Boundless, you'll learn how to: • Break free of self-imposed barriers to achieve your personal goals and enrich your life • Meditate for peace of mind, emotional balance, and a renewed sense of well-being • Use Ayurvedic techniques that allow access to your "inner pharmacy" and trigger your body's natural healing power • Determine your mind-body type (dosha) and choose the lifestyle best suited for it • Use the Seven Spiritual Laws of Success to maximize your potential and enhance your personal effectiveness • Leave fear behind by getting in touch with that part of yourself that is beyond it • Explore the innermost connection between the mind, body, and spirit with deeply personal experiential exercises Ultimately, lasting joy, health, and harmony require us to experience life in the context of eternity and immortality. If you are ready to step into the boundless and experience the extraordinary miracle of life, then you are invited to join Dr. Chopra on a journey of all possibilities." 6 Compact Discs \$99.95 [more details](#)

Phentermine is used as an appetite suppressant. It is used in conjunction with an overall diet plan to reduce weight. Phentermine is best taken on an empty stomach one-half hour before breakfast. Because this medication may cause sleeplessness, avoid taking a dose late in the day. Take Phentermine as prescribed. **ADIPEX Adipex** is used as an appetite suppressant. It is used in conjunction with an overall diet plan to reduce weight. Adipex is best taken on an empty stomach one hour before meals. Because this medication may cause sleeplessness, avoid taking a dose late in the day. Take Adipex as prescribed. **BONTRIL Bontril** is used as an appetite suppressant. It is used in conjunction with an overall diet plan to reduce weight. Bontril is best taken on an empty stomach one hour before meals. Sustained-release or long acting products must be swallowed whole. Crushing or chewing them will destroy the long action and may cause increased side effects. Because Bontril may cause sleeplessness, avoid taking a dose late in the day. **DIDREX Didrex** is an appetite suppressant used along with diet, exercise, and behavior therapy for the short-term management of obesity. Take Didrex about 30 minutes before a meal. Take your last dose of the day at least 4 to 6 hours before bedtime. If you are taking Didrex 1 time a day, take your dose in the morning. Follow the directions for using this medicing provided by your doctor. **IONAMIN Ionamin** is used as an appetite suppressant. It is used in conjunction with an overall diet plan to reduce weight. Ionamin is best taken on an empty stomach one hour before meals. Because Ionamin may cause sleeplessness, avoid taking a dose late in the day. Take Ionamin as prescribed. Do not take it more often or longer than directed. **SLIMPRO SlimPro** The scientifically advanced ingredients in Slimpro help release stored fat and give you access to it for immediate energy, while reducing your appetite and helping you burn fat calories that would otherwise be stored in your body. A relatively low-fat diet and/or moderate exercise will further increase the effectiveness of the Slimpro formula. **MERIDIA MERIDIA** is an oral prescription medication used for the medical management of obesity, including weight loss and the maintenance of weight loss and should be used in conjunction with a reduced calorie diet. In medical studies in overweight people, MERIDIA, along with a reduced calorie diet, produced significant reductions in body weight. **PHENDIMETRAZINE Generic Bontril:** This medication is used as an appetite suppressant. It is used in conjunction with an overall diet plan to reduce weight. **Tablets Chemical Name: PHENDIMETRAZINE (fen-dye-MET-ra-zeen)** Common uses: This medicine is an appetite suppressant used along with diet, exercise, and behavior therapy for the short-term management of obesity. **TENUATE Tenuate** is an appetite suppressant used alone with diet, exercise, and behavior therapy for the short-term management of obesity. Take Tenuate about 30 minutes to 1 hour before meals. Take your last dose of the day at least 4 to 6 hours before bedtime. Follow the directions for using Tenuate provided by your doctor. **FATTACHE** This product is the latest innovation of Fattaché Internacional. After several years of research, they finally achieved a formula that actually helps people control the sugar or glucose levels in the blood. **XENICAL XENICAL** is a prescription weight-control medication useful for the long-term treatment of significant obesity. XENICAL can also help to improve risk factors, such as high blood pressure, high cholesterol and high blood sugar which, if not treated, could lead to other diseases such as hypertension and diabetes. Each XENICAL capsule contains 120 mg of the active substance

orlistat, which acts as a lipase inhibitor. [more details](#)

Show Dog

- What is ShowDog.Com? ShowDog.Com is an online game where you get to take on the mixed role of breeder, owner, handler, trainer, and groomer of a kennel of show dogs. You get to manage the rations your dogs receive, how you breed your dogs, which shows you enter, who handles your dogs in the shows, and much, much more. Below is a small list of the many features of ShowDog.Com... NO REAL DOG SALES We do not condone puppy auctions and want to make it clear that this is a GAME. There will never be real dogs for sale on ShowDog.Com. Time Scale One month in real life is equal one year in the game Puppies mature at one month Breeding Any puppies not sold to other users can be sent to forever homes where they will be cared for by a loving family You cannot breed mutts, only purebred dogs A detailed genetic engine creates traits for new puppies based on the traits of their parents Buying/Selling Dogs can be listed in our online classifieds to receive offers Dog owners screen the offers received to decide on a user to sell their dog or bitch to Any user can make an unsolicited offer on any other dog There are no puppy auctions on ShowDog.Com Breeds 148 AKC recognized breeds and a few others are included. Each breed has a rating for; Feed requirements Ease of training Exercise requirements Grooming requirements Cold tolerance Heat tolerance Likeliness to develop: Deafness Hip Dysplasia Elbow Dysplasia Other genetic faults If there aren't enough breeders for the breed you want to work with, you can get your friends to join and make your breed more popular Each breed has its own level of difficulty based on the amount of users, dogs, and entries over the past month. For a detailed ranking of breed difficulty, click the link on the left hand toolbar Day-To-Day Operation Users have to feed their dogs a ration of their choosing Subscribers can create custom rations You have to work with your dogs to get them in prime condition Exercise Amount of exercise depends on breed and age of dog Dogs health will be impacted on how much exercise it gets Will impact muscle development in dogs Obedience Training Will have a huge impact on how well a dog performs in the show ring Some breeds will be harder/easier to train than others Users will improve at obedience training as they train their dogs Grooming Depending on breed some breeds may not need to be groomed at all Some breeds will require extensive grooming Grooming effect on breeds with a large grooming requirement will depend on the ability of the user Users will 'get better' at grooming as they groom more dogs Users have a limited amount of time to devote to each of the three requirements of their dogs Show Circuit One all-breed show every day on the circuit Users can pay to sponsor additional shows Show Dog Rankings Dogs compete to finish their championships just like real life Dogs are ranked nationally, by variety, and by breed according to the system used by the AKC Dog Show Judging Dogs compete in following divisions; Dogs Puppies (under one month game time) 12 - 18 months (one to one and half months game time) Novice (users with less than two-months on the site) Handled by exhibitor ShowDog.Com Bred (bred in the game, not a source dog) Open Bitches Puppies (under one month game time) 12 - 18 months (one to one and half months game time) Novice (users with less than two-months on the site) Handled by exhibitor ShowDog.Com Bred (bred in the game, not a source dog) Open Winners of divisions will compete with champions in the best of breed Best of breeds will compete for best in group Best in group will compete for best in show Traits to be judged Head Muzzle Angularity Conformation Coat Teeth More to come later Puppies are eligible to be shown at the age of two weeks (sim months game time) Online Community Online forums for all seven groups and general show dog discussion In game e-mail system to stay in touch with friends from the sim. - Pest Magic (UK) - Safe, effective way to control pests around home or business. State of the art technology makes pest control hassle free and environmentally safe. Plugs in and creates intermittent signal using the wiring in your walls that drives pests out. Will not effect electrical equipment. No smell or fumes. Covers 2,500 sq. ft. 1 unit per level Safe for household pets except mice, rats, gerbils, guinea pigs, chinchillas, minks and tarantulas. No matter where you live, no matter how clean you are, bugs and household pests are everywhere. No one want to have them in their home and what do you do? You spray toxic chemicals and carcinogens, but do you want that near your family and pets? And who wants to pay month after month, or have strangers come into your home to do it? Even store-bought chemicals can be dangerous and expensive. The answer is the incredibly safe and effective Pest Magic. Just plug it in and the state-of-the-art pest repeller uses the wiring in your home to create a massive force-field that drives the pests out without killing them, by interfering with their nervous systems, and prevents new pests from coming back. Pest Magic takes computer technology to the 21st Century with it's microprocessor driven ultimate pest repeller that's guranteed to rid your home of spiders, ants, roaches, rats, mice, silverfish and even more. MozzieXit (MOZZIEXIT is an indoor Mosquitoe Repeller which eliminates the need for messy chemicals, sprays or lotions. Just plug into your existing electrical socket and drive mosquitoes away. Using the latest technology it is laboratory tested, environmentally friendly and CE, UL and GS approved. It is both chemical free and safe for children and pets. It gives 24 hour protection and coverage for an area up to 1500 square feet using a frequency of 20-85 Hz, a sound level of 80 dB and a power input of the standard UK 240 volt household power supply.) - RAPID WHITE ORIGINAL (UK) is the tooth whitening system that works on natural human teeth and in 3 easy stages gives white and brighter teeth to enhance that smile you always wanted. With easy to use instructions and fully tested and sold internationally RAPID WHITE ORIGINAL is the way to achieve whiter, brighter teeth. [more details](#)
- Rapid White™ (UK) will help you achieve that smile. There are so many reasons our teeth start to discolor - the food we eat or the tea and coffee we drink may play a big role. Getting to the dentist on a regular basis to have your teeth cleaned as often as you would like is not always practical. If we don't address the problem, we start to feel self conscious about our teeth. As our teeth lose their natural white color we may even start to avoid showing them or at least feel embarrassed when we do. That is completely unnecessary ~ you don't have to live with less than white, bright teeth! [more details](#)
- MozzieXit (UK) - MOZZIEXIT is an indoor Mosquito Repeller which eliminates the need for messy chemicals, sprays or lotions. Just plug into your existing electrical socket and drive mosquitoes away. Using the latest technology it is laboratory tested, environmentally friendly and CE, UL and GS approved. It is both chemical free and safe for children and pets. It gives 24 hour protection and coverage for an area up to 1500 square feet using a frequency of 20-85 Hz, a sound level of 80 dB and a power input of the standard UK 240 volt household power supply. - Gazelle XL Freestyle Glider - Tony Little's Gazelle Freestyle® gives you 10 aerobic, stretching, and strength training exercises all in one incredible, fun, calorie-burning workout. The Gazelle Freestyle's range of motion is the secret to this technology. It enables you to use more muscle while you exercise, thereby raising your metabolism and burning more calories. [more details](#)

- Orbitrek Exerciser - The OrbiTrek exerciser is more workout than a treadmill, more versatile than a Stairmaster and more fun than a ski machine! Pedal your way to whole-body fitness on this revolutionary new exercise machine. The elliptical rotation of the pedals and the vertical stride bars are engineered to complement the natural movements of the human body. Tested for effectiveness and durability by some of America's leading trainers, doctors and athletes, the OrbiTrek has become a fitness sensation! It's Thursday night. After eight hours working, another hour in the car, and still more time preparing dinner, do you want to find a babysitter so you can go out to the gym? Perhaps you think you don't have a choice. After all, you don't have space for a large, expensive home gym, but you want a full workout, not just the lower-body exercise a treadmill provides. The OrbiTrek is for you! Moveable and silent, you can roll it into any room and use it without disturbing your family. Pedal while watching TV, minding your kids, or waiting for meals to cook. Health, fitness and a fabulous body are now within your reach! [more details](#)

- Gazelle Freestyle XL® - The Gazelle Freestyle XL® gives you 10 aerobic, stretching, and strength training exercises all in one incredible, fun, calorie-burning workout. The Gazelle Freestyle XL®'s range of motion is the secret to this technology. It enables you to use more muscle while you exercise, thereby raising your metabolism and burning more calories. - IGIA Cellulift - IGIA Cellulift : Helps temporarily reduce the look of cellulite. -Also provides a wonderful massage. -Easy to use. It's a common problem. Nine out of ten adult American women have some build-up of fatty, lumpy deposits under the surface of their skin, especially in their thighs. Often referred to as "orange-peel skin" or "cottage cheese legs", it's considered aesthetically unpleasant to today's beauty conscious woman. Fortunately, you can now banish your bumps with IGIA Cellulift™ and enjoy a great-feeling massage as well. The IGIA Cellulift™ system has two parts, the specially formulated Cellulift massage gel, and the sensual massager. The gel is a special formulation of three important ingredients: Vitamin E, Aloe Vera and Pronalen, a safe and natural caffeine derivative. It helps to smooth and refine cellulite-prone areas. The gel itself will leave your skin feeling tighter and firmer. At the same time, the whole massager vibrates as it glides over your skin, offering a gentle and soothing massage that temporarily flattens the appearance of cellulite. Contoured rollers on the front press and massage the skin layer. Deep heat penetration aids the absorption of the massage gel. Active air suction provides massage-lifting effects between the rollers. Finally, a rear roller smoothes the skin, finishing the process.

- Makura Buckwheat Pillow - This miraculous pillow is a cotton sheet filled with 100% thoroughly cleansed Buckwheat seeds. This unique pillow will fit the contour of your body and firmly support your head and neck as you sleep. There are special seeds in the pillow that will fit the contours of your head and neck yet still give them the right amount of support. When your muscles are in their preferred position of proper cervical curvature they will not have to work so hard during the night. Your muscles can relax. While your muscles are relaxing your nerves can then heal from the daily irritation of head, back and arm movements. This naturally increases your body comfort and allows you to fall asleep faster. Sleeping is one of the most important things we do. Proper sleep affects how we perform throughout the day. The better we sleep, the better our performance. In spite of the importance of sleep, most pillows were not designed to properly support the body to ensure a good night's sleep. But with the Makura Buckwheat pillow you will sleep in a proper position and your muscles will be able to relax. The relaxation of your muscles will ease body pain, giving you a better and more thorough sleep [more details](#)

- Flashlight Stun-Gun - With a typical stun gun a shady character is always ready to break through your defense because they can see it before hand. Because this stun gun is masked to look exactly like an innocent looking flashlight the bad guy will be caught off guard. A quick zap with a powerful electric charge and he won't know what hit him. And at 80KV it packs a wallop. A moderate blast of 1 to 3 seconds will cause an attacker to fall to the ground and result in minor mental disorientation. A full charge of 3 to 6 seconds will fully immobilize the attacker, in most cases causing a loss of balance and severe disorientation, putting them on the ground, dazed and weak for several minutes. - **Water Trampoline shopping cart** - Jump for joy! The 12 foot wide Water Trampoline is here just in time for your summer water vacation. Inflates in less than 5 minutes with included electric air pump! If you've ever had the opportunity to jump on a trampoline then you know what a thrill it is. It's one of our favorite memories as kids. When we felt we could fly. Well now you can experience that thrill again. Only this time it'll be on water. Imagine taking the kids to your favorite lake. But instead of just swimming and fishing this time you'll be able to jump on water. Now that's what we call a real water sport. With the 12 foot in diameter Trampoline Super Jumper you'll keep the kids entertained for hours (adults too). And it literally takes only a few minutes to set up. Just unroll it, attach the air pump and in five minutes you'll be jumping for joy. You can even remove the jumping net and fill it with water for a kiddie pool. And it's big enough for two to just float and soak up the sun. The Trampoline Super Jumper is tough too. Constructed from heavy duty reinforced 3-ply PVC material and coated with polyester fabric it's resistant to abrasions and harmful sunlight. The trampoline net is made of heavy duty polypropylene. In other words it can handle the pounding it is sure to get. 4 built-in handles make it easy to transport and maneuver. [more details](#)
- **Remote controlled boat** - Great Big Fun! Nothing is as much fun as a remote controlled boat. Measuring less than 3 inches long, you can bring the fun anywhere there is water... bathtub, pool, pond or lake. Watch your amazing little boat zip around the water as you control its twin motors with the included 6-way remote controller that gives you complete control of your boat's speed and maneuverability (forward, reverse, left and right in both forward and reverse, and stop). It has an outdoor operating range of 50 to 80 feet. [more details](#)

- Bun & Thigh Roller - The Bun and Thigh Roller exercise machine is a simple, fast, and easy way to tighten up your bun and thigh muscles. How The Bun & Thigh Roller Works: Anyone can use it! The Bun & Thigh Roller is as easy to use as a rocking chair. As you rock backwards, the resistance band challenges your muscles, making them stronger, tighter and more toned while minimizing impact to your knees and back. The padded back and head rest provide a comfortable workout that doesn't feel like work. And the Bun & Thigh Roller adjusts to your height, so it fits anybody. 8 resistance settings! By using different combinations of the resistance bands, the Bun & Thigh Roller provides eight levels of difficulty, so it's great for a total beginner or a serious athlete. Just 5 minutes a day! The revolutionary sculpting arc motion targets five muscle groups with one magic motion. In just 5 minutes, you can workout these five muscle groups: glutes, quadriceps, hamstrings, inner thighs, and outer thighs (abductors). Dean Tornabene, former Mr. America and inventor of the Bun & Thigh Roller, explains how he came up with the concept... The inspiration for the Bun & Thigh Roller came from the swiss ball. Before my workouts, I was using the swiss ball to stretch my lower back, hips and thighs. I realized this would be a fantastic way to sculpt the lower body if it only offered the resistance necessary for fast results. I designed the Bun and Thigh Roller to mimic the arcing motion of the swiss ball, added handles for stability, and resistance bands to sculpt your muscles while you are stretching them. It's that unique combination of stretching and strengthening that gives you the long, lean muscles that look great on a women, rather than bulk. I know the Bun & Thigh Roller will make you look great, and you'll have a ball using it! -Dean [more details](#)

- Snore Stopper - Wear it on your wrist while you sleep. It will train you to stop snoring! Up to 40% of the population is affected by snoring (or, by someone snoring next to them). Now, there's an easy and safe solution, that doesn't require pills, chemicals, or surgery. Snore Stopper looks like a watch. You wear it on your wrist when going to sleep. It has a tiny, yet highly sensitive microphone that detects snoring and sends safe electronic pulses to the wrist. These pulses work similar to your spouse nudging you. They'll cause you to alter your sleeping position and stop snoring. The pulses aren't powerful enough to disrupt your sleep, but they will make you roll over, and the snoring will stop. The microphone only detects sounds in the snoring frequency. It won't be affected by other surrounding noise, such as someone talking, or watching television. The Snore Stopper has two intensity levels. There's a normal one (that works for most people), and there's a more powerful level for those who need a little extra "nudge". Extended use with Snore Stopper may actually train the body to stop snoring. Your spouse will appreciate the Snore Stopper as much (or more) than you! [more details](#)
